ANNUAL UNIVERSITY OF FLORIDA BEEF UNITS’
CATTLE SALE – Saturday, Nov. 17, 2018

- 2 Registered Brahman Bulls.
- Approx. 55 Head of Pregnant Cows.
- Approx. 10 Head of Yearling Crossbred Heifers.

Cattle are primarily Angus & Brangus with some higher percent Brahman crosses. This is a dispersal type sale of the Angus and Brangus herd from the Santa Fe Beef Unit. Most of the cows being sold were used as embryo recipient cows over the past year that did not produce an embryo pregnancy. They were then exposed for a short time to a bull to be sold as pregnant cows. Dr. Owen Rae has placed an approximate conception date on the pregnancies by palpation.

Cows range from 1 to 12 years old.

Projected calving dates from December - May.

List of sale cattle will be available at least 10 days prior to the sale by request or on the following website:
